

GO KOALA – ELECTRIC SKULLS RADIO (2014)

LYRICS

1. ONLY YOU KNOW

You always wonder why
you had stopped to fight
too many things are in you
but you could stand up too
only you know the way
to escape and go away
too many things are in you
but you could stand up too

**I will explain you've to smile again
I will explain how (to) remove the pain
and I will try to stop tremble with you
until you will feel able to chose**

only you know my name
that's sounds like pain
too many things are in you
but you could stand up too

**I will explain you've to smile again
I will explain how (to) remove the pain
and I will try to stop tremble with you
until you will feel able to chose**

2. WAITING FOR

When you say darling
you really feel emotions
When you say living
don't wanna feel devotion
You will stop here now
I just want to believe in you
when you'll know the meaning

You'll know the real solution
What are we waiting for?
What are we waiting for?
So we are, so we are
What are we waiting for?
What are we waiting for?
So we are, so we are here
When you're sad darling
Your life goes in slow motion
It's not strange show it
If you conceal a potion
You will stop here now
I just want to believe in you
when you'll know the meaning
You'll know the real solution
What are we waiting for?
What are we waiting for?
So we are, so we are
What are we waiting for?
What are we waiting for?
So we are, so we are here now

3.MEDICATION

What's the price of purity,
my sweetest friend?
Only water for a week,
some fruits and then
Medication
makes you feel all right
Can you sleep all night
What's the color of a heart,
my sweetest friend?
You told me that it's red
But i think it's black
Medication
can make me feel all right
So I go back to fight
Call me anger,
Wind of thoughts
While I'm sleeping
In the peace I deserve
That's no honor in a cage,
my sweetest friend?

you told me that's my bad
but I think I'm mad

Medication

makes you feel all right

Can you sleep all night

Call me anger,

Wind of thoughts

While I'm sleeping

In the peace I deserve

hold on, just keep going on

Call me anger,

Wind of thoughts

While I'm sleeping

In the peace I deserve

4. DON'T WORRY

Don't believe in the man who says

"life is simple, it's meaningless"

i created a new cosmogony

that explains everything

maybe god went to sleep

dreaming about (the) apocalypse

all the bad things make a noise

all the others used the voice

please don't worry

if you don't understand

please don't worry

it's like grabbing sand

and everything is mixed in the world

all the truth is spread in the world

while we think that we understood

everything has changed, everything is new

god doesn't play with the universe

he only fell into hibernation

and all his sheeps without a shepherd flee

if this makes sense, what do you think?

please don't worry

if you don't understand

please don't worry

it's like grabbing sand

why do we need to scream

until we find what hurts?

5. HEAR ME

Throw away your stupid thoughts
all the bad things that you fo(ug)th
throw away what you can't start
they can hurt and crash your heart
I always told you to do so,
but you've never never done
For this reason you are lost
It's to late and you are lost

Hear me

I'm not the hunter

Hear me

I can bring you back to home

Throw away your stupid traps
I am faster than two rats
Throw away what you have earned
Money makes you fell so sad
Always told you not to run
Don't mind what you have done
For this reason you are lost
It's to late and you are lost

Hear me

I'm not the hunter

Hear me

I can bring you back to home

I'm wanna be ok

Hear me

I'm not the hunter

Hear me

I can bring you back to home

6.RAIN

I'm just a little boy
no sneakers on my feet
with the sun on my head
I run faster than the wind
my day is simple
and now I'm quite happy
but when you get here
Here comes the rain..... again
***When the water's pouring down
wet shirt and dry heart
new houses are in town
I undestand you're not my friend***
I have a little toy

It is hidden underground
with the cl(A)ouds on my head
it is time to pull it out
You didn't want to see
the power of this game
so you'll never know because
there goes the rain....again
***When the water's pouring down
wet shirt and dry heart
new houses are in town
I understand you're not my friend***

7.ANOTHER WAY

How I go to work this morning?
How I bru(A)sh my teeth into the soul?
can I wear the clothes you give me
And still thinking that I'm always the same?
Now I want to take the train that
has no stop, no pilot, and no rail
but I don't pay the ticket
please my love, could you give me yours
give me yours
**but I know another way
I know another way
I know another way
what you want to loose along the way**
And I take a boat from nowhere
the answer my friend ° does still blow in the wind?
can I stop and stay for hear them?
could they push my heart ° until the end?
I don't think that is so cold
without you in the sea of possibilities
but I don't take the jacket
please my love, could you give me yours?
give me yours
**but I know another way
I know another way
I know another way
what you want to loose along the way**

8.WE ARRIVED

We have to leave
From our dear country
We're going to bring

What we care
We wanna live
For a better life
And we still
We still fight
We arrived
Holding hands
We search for good time
Not yet end
We arrived
Feel like home
Survived at time
Like at stone
We will believe
In our real dreams
For you, for me
for a better life
You'll under stand
My dear friend
And you can try
Look with my eyes
We arrived
Holding hands
We search for good time
Not yet end
We arrived
Feel like home
Survived at time
Like at stone

9.WAKE ME

When I was young
mummy told me life's outside
probably she spent
too much time inside to hide
So when I grew up
I ate the whole wide world Had an indigestion
Of my old past passions
Wake me / I don't wanna.
I devoured friendship
Swallowed all the pain
Drank the smiles of people
and Forgot their names

now that I am old
I go to bed early
I hope to dream about
When I was the world eater
Wake me / I don't wanna.
Oh world, don't forgive me
Oh world, I'm yours again
Oh world, don't forgive me
Oh world, I'm yours again

10. TO RESSURE YOU

You're not alone.
All the voices you've heard
are here to say,
to reassure you
Like the snow
covers up all the forms
All the words
to reassure you
